

FREE PUBLIC LECTURE

Hosted by the Centre for Addictions Research of BC

“The Internationalization of Ayahuasca: Public Controversies and Regulation”

Speaker: *Dr Beatriz Caiuby Labate*

When: Thursday, **February 16, 2012** from **4:00 to 5:00 PM**
University of Victoria, David Strong Building, Room C112
<http://www.uvic.ca/students/undergraduate/explore/maps/dsb.php>

About the Lecture

This presentation will address the internationalization of ayahuasca, a psychoactive substance made generally from the plants *Banisteriopsis caapi* and *Psychotria viridis*. Ayahuasca has traditionally been used in indigenous, mestizo shamanic, and religious rituals in South America. In the last 20 years, its use has spread beyond the Amazon to the world, and has been accompanied by great controversy. This presentation will analyze the public debate around the expansion of the use of this substance. It will contemplate the discussions in media and society around legalization, religious freedom, cultural diversity, and health risks. This analysis makes use of ethnographic fieldwork in the main new contexts of use of this substance, such as ayahuasca tourism in Peru, and the expansion of the Brazilian ayahuasca religions (Santo Daime and UDV) around the world.

About the Speaker

Beatriz Caiuby Labate (Bia Labate) has a Ph.D. in Social Anthropology from the Universidade Estadual de Campinas (Unicamp), Campinas, Brazil. Her main areas of interest are the study of psychoactive substances, drug policies, shamanism, ritual, and religion. Currently she is a Research Associate at the Institute of Medical Psychology, Heidelberg University. She is also researcher with the Nucleus for Interdisciplinary Studies of Psychoactives (NEIP) and editor of its site (<http://www.neip.info>). She is author, co-author and co-editor of eight books, two with English translations, and one journal special edition. Her book “A Reinvenção do Uso da Ayahuasca nos Centros Urbanos” (“The Reinvention of the Use of Ayahuasca in Urban Centers”, Mercado de Letras, 2004) received the prize for Best Master’s Thesis in Social Sciences from the National Association for Graduate Studies in Social Science (ANPOCS) in 2000. Canadian Drug
Policy Coalition

Coalition canadienne
des politiques
sur les drogues

This lecture is co-sponsored by the Canadian Drug Policy Coalition (CDPC) and MAPS Canada (Multidisciplinary Association for Psychedelic Studies – Canada).

MAPS Canada supports research into the therapeutic and other potential benefits of psychedelics and cannabis, and seeks to educate the public honestly about the risks and benefits of psychedelics and cannabis.

The Canadian Drug Policy Coalition envisions a safe, healthy and just Canada in which drug policy and legislation as well as related institutional practice are based on evidence, human rights, social inclusion and public health.
