

**Canadian Alcohol and Drug Use Monitoring Survey (CADUMS),
BC and Canada, 2008-2010**

Cannabis use in past 12 months

Year	BC (men)	BC (women)	Sig.	CA (men)	CA (women)	Sig.	BC (both)	CA (both)	Sig.	Total
2008	16.0	10.6	*	14.1	8.3	*	13.4	11.1	*	11.4
2009	15.84 [13.75, 17.93]	9.74 [8.14, 11.35]	*	13.99 [11.82, 16.17]	6.83 [5.39, 8.28]	*	12.70 [11.39, 14.01]	10.30 [9.00, 11.60]	*	10.62 [9.47, 11.76]]
2010	16.65 [12.86, 20.44]	8.88 [6.20, 11.56]	*	14.31 [12.42, 16.19]	6.79 [5.77, 7.81]	*	12.65 [10.34, 14.95]	10.43 [9.36, 11.49]		10.72 [9.75, 11.69]

CA represents the rest of Canada (excluding BC)

* $p < .05$ between males and females or between BC and CA – calculated using Rao-Scott Chi-Square which takes into account the design effect of the survey sampling design

Relative weighted proportions are presented to account for the complex design of the survey

[] 95% confidence interval- based on Wald calculation
